4. **Describe your professional self**

Daniel is a Lecturer at the School of Business at Karatina University. He obtained his PhD in Development Studies from Kenyatta University and holds a Master's degree in International Economics from Hochschule für Wirtschaft und Recht Berlin in Germany. Additionally, he completed a summer semester at Kobe University, focusing on Development Studies in Japan, and earned a Bachelor of Education in Economics from the University of Nairobi in Kenya. As a researcher, author, and educator, Daniel specialises in Development Studies, Health Economics and Monetary Economics. He has accumulated over 15 years of teaching experience alongside a decade of international exposure across Europe, Asia, and Africa, contributing significantly to both academia and practical applications through various roles in higher

education institutions and organisations.

Daniel has provided consultancy for significant projects, including a research initiative with the London School of Economics (LSE), where he focused on online data collection and analysis utilizing tools such as Open Data Kit (ODK) and NVIVO. He has also conducted extensive training and consultancy in areas encompassing economics, gender issues, and development.

His expertise has been highlighted at notable conferences, including the Development Research Conference at Stockholm University, Sweden and the Economic Justice Institute in Durban, South Africa. Furthermore, he has engaged in academic courses on writing and development issues facilitated by organizations like CODESRIA.

Daniel is a member of the Royal Economic Society in the United Kingdom, underscoring his commitment to advancing economic research and education.
